2. DESCRIPTION OF SEEMEEGO SERVICES

2.1. SeeMeeGo is a unified mobile app that serves as a showcase for various artificial intelligence (AI) tools capable of generating videos, including third-party video-generation engines integrated into the App environment. It brings together multiple video-generation technologies in one place, allowing users to easily access, compare, and choose the AI tool that best suits their needs. Users can enter a single App and flexibly use the video generation solution that fits their preferences.

Use of any materials in the App is at your own discretion and risk.

3.4. The App does not create, validate, or verify the results generated by third-party AI tools. Users should not interpret any video content or media outputs as authoritative, complete, or factually accurate.

especially in high-stakes, sensitive, or decision-making scenarios. Independent verification is strongly advised before relying on any materials produced within or through the App.

3.5. We do not guarantee that the App, its integrated tools, or any generated content will be uninterrupted, error-free, virus-free, or suitable for any particular purpose. The App and its functionality are provided on an “as is” and “as available” basis.

3.6. If you are dissatisfied with the App, its content, or the AI services accessible through it, your sole and exclusive remedy is to discontinue use of the App.
